BRIGANDS SEND OUT PRISONER EMISSARY

HENLY TAKES BACK TO CAMP TERMS OF THE GOVERNMENT

AMERICAN REPORTS THAT THE CAPTIVES WERE ALL IN GOOD HEALTH

HIGH HOPES ARE HELD OUT THAT HE OBTAIN RELEASE BY SUNDAY

(By United Press)

Tientsin, May 12, 2:10 p. m.—J. A. Henly, American from San Francisco, went back this afternoon to the bandit camp in the Shantung hills whence he was released Friday, carrying food for the foreign captives still held captive, and terms on which the Chinese government proposes to negotiate with the brigands.

Henly, who was permitted to leave the stronghold to which the bandits withdrew with their prisoners they kidnaped after the wrecking of the Shanghai Express, Sunday morning, reported that the captives were in good health.

High hopes are held out that he will be able to negotiate success fully for release of all the foreigners by Sunday at the latest. China's military governors considering an ultimatum from the powers saying they will exact accumulative indemnities for each day the foreigners are held, announced they were prepared to pay whatever ransom the brigands now demand. At first the latter asked a million dollars, but after freeing their captives in small groups or singly, they have considerably reduced their demands.

It is not known here what amount is placed on the heads of the eight or ten foreigners still prisoners.

Part of the brigand terms was made known by Henly upon his arrival at the nearest post outside the hill country where the kidnaping horde rules. This is that the siege that is being laid by government troops about the brigand camp be lifted immediately.

The brigands also want the privilege of enlisting in the army or to receive the freedom of a fifty mile area in which they will be free from arrest or attack by troops.

MOMENTARY RELEASE OF PRISONERS EXPECTED

Washington, May 12.—The American government today momentarily expected release of the prisoners held by Chinese bandits who wrecked the Shanghai-Peking express.

Both the state department and the Chinese legation here have information which leads Secretary of State Hughes and Chinese Minister Sze to believe that the American and other foreign captives will soon be set free.

The department issued the following statement:

The department has received information from Consul Davis to the effect that it was believed the foreigners now held captives consist of 15 men and two women and that they will be released very soon.

KIPKE AVERTS RIOT AT U. OF MICHIGAN

Ann Arbor, Mich., May 12.—Harry Kipke, University of Michigan gridiron star, averted a threatened riot between university freshmen and sophomores here last night when, learning a group of 500 freshmen had congregated to attack 150 sophomores on the eve of the annual spring games, he climbed the steps of the Michigan Union and addressed the belligerent crowd.

"The hope of student government rests in your hands," Kipke told the freshmen. The first year men cheered Kipke and followed him through the streets in a shirt-tail parade before disbanding.

President Harding Fears the 'Interpreting' Done

SLAVE PROBLEM IS ONE OF MORE COLORS THAN JUST THE WHITE

(By United Press)
Geneva, Switzerland, May 12.—In reply to a questionnaire sent by the League of Nations to all members asking them about the status of white slave traffic and local laws against it, the government of Haiti responded that a "white slave" question did not exist on that island.

The league's secretary now is considering the advisability of altering the language of the questionnaire so it will read black, brown, yellow or white slaves as the case may be.

POISONED PUNCH SICKENS STUDENTS

SOMEBODY MUST HAVE REINFORCED THE REFRESHMENTS

(By United Press)
Terre Haute, Indiana, May 12.—Fifty students and guests at the Junior prom of Rose Polytechnical Institute were under medical treatment physicians believed due to drinking poisoned punch.

Dr. E. L. Larkin who was called to the dancing floor when the students became ill, said some of the cases were serious, although he believed none would prove fatal.

NAMING U. S. SENATOR BEFORE THE COURTS

(By United Press)
St. Paul, May 12.—Action to bring the 1913 law relating to appointment of United States senator before the supreme court is being arranged today.

Governor Preus spent half of the afternoon in conference with prominent republican lawyers. It is believed they discussed action to be taken.

The governor has said he believed it his duty to respond to calls that he succeed the late Senator Knute Nelson, but he wants the court to decide whether the statute permitting him to resign as governor and be appointed to the senate is legal. It was pointed out today that the courts have followed a rule of holding to the intent of the legislature and not to the actual wording of the law in many cases.

The governor went to Cloquet today to meet a senatorial commission probing forestry problems.

HOUSING DELEGATES TO ELKS' MEETING ARRANGED

Hibbing, May 12.—To provide for adequate accommodations for Elks who are expected to attend the state convention at Hibbing Aug. 16, 17, and 18, the housing committee of the convention executive board has secured the teachers' quarters in the Haley-Alexandria building and the Colonial clubhouse. The Oliver clubhouse will be headquarters for women.

Athletic events at Bennett park and a children's dress parade are two more numbers which have been added to the program. A sight-seeing tour into the open pit mines is also being arranged, it is stated.

HUNTER DRESSED IN HIDE OF MOTHER BEAR CAPTURES CUB ALIVE

Merrill, Wis., May 12.—After trapping a mother bear weighing 225 pounds, John Alery covered himself with the animal hide and waited near a tree in which two cub bears were seeking refuge. One of the cubs came to him quickly and proved so docile that Alery brought it to this city and expects to keep it as a pet. He intends to repeat the performance and capture the other cub.

RAILROADS TRY TO HOLD WORKERS IN SUMMER MONTHS

WAGE INCREASES OF \$30,000,000 YEARLY GRANTED IN PAST FEW WEEKS

NEGOTIATIONS UNDER WAY FOR ADDITIONAL ADVANCES OF \$50,000,000

(By United Press)

Chicago, May 12.—Railroads endeavoring to hold workers during the summer have granted wage increases totaling approximately \$30,000,000 yearly within the last few weeks, according to figures compiled here today.

Negotiations now under way involve advances of approximately \$50,000,000 annually additional.

The Great Northern railroad is the latest to join the ranks of the lines increasing pay voluntarily. Announcement was made of increases totaling \$1,000,000 annually for maintenance of way workers.

Shop workers, boiler makers, mechanics, clerks and other classes of workers have been granted advances on other lines.

Among railroads which had previously announced increases for certain workmen were the Santa Fe, Pennsylvania, Nashville, Chattanooga and St. Louis and Chicago & Alton.

These increases were granted either voluntarily or through negotiations directly between union heads and railroad officials without appeal to the United States railroad labor board.

However, the board is preparing to hear disputes which may be unsettled through direct negotiations between the managements and the men. Members of the board expect a nationwide movement for increases of all classes of railroad men's pay within the next few months.

WORLD'S YOUNGEST MOTHER IN TEXAS

(By United Press)
San Antonio, Texas, May 12.—Two months old Gordon Joe will wear a red flower on "Mother's Day" in honor of ten year old Mary Cavenader, the world's youngest mother.

Mother Mary has temporarily deserted her marvelous little "live doll" that smiles and sometimes cries in her enthusiasm in arranging a surprise for Mrs. Sarah Culbertson, the only mother 28 other children of the San Antonio mission know. Beyond the red rose to be worn by her baby, there will be no recognition of the fact that Mary is a mother. The policy of the home, according to Mrs. Culbertson, is to treat Mary herself as a child and keep her from feeling the full extent of her responsibilities.

Farmer Lodge Laid Up

Chicago, May 12.—Farmer Lodge, who was unintentionally fouled by Jack Johnson in Havana last Sunday, will be unable to meet the former negro heavyweight champion next Sunday in a resumption of their engagement, it was learned today, when Lodge passed through Chicago en route to St. Paul. Physicians said Lodge would not be in condition to fight again for at least six weeks.

"Colds" and Their Causes.
It is estimated that there are at least 100,000,000 colds in a year in this country, which is said to make it the most common infectious disease among our people. In this connection it also states that colds do not come from drafts or chills, as many believe, but that the draft and chill merely help things along by making it easier for the transmitted germ to get in its work.

Immunity Offered If Stills Are Surrendered

The city of Columbia Heights yesterday offered immunity from prosecution to all "bootleggers and manufacturers" of liquor who will turn in their stills and apparatus at the city fire house between today and May 19 and renounce their occupation.

AIM TO CONSERVE FOREST INDUSTRY OF UNITED STATES

COMMITTEE OF U. S. SENATORS MEET WITH INDUSTRY MEN IN CLOQUET

GOVERNMENT STATION MAY BE LOCATED THERE TO ASSIST IN WORK

The Brainerd Civic and Commerce Association named as delegates to this convention Mons Mahlum and A. G. Trommald.

Cloquet, Minn., May 12.—That a determined movement is on to conserve the forest industry of the United States, with Minnesota as the nation's largest forestry center, was evident as a committee of United States senators met this afternoon with representatives of the industry here.

The State Forestry Department, division of Forestry, also business men and lumber companies of the Northwest were represented at the conference.

Location of a Forestry Experimental station in the lake states as provided in a recent stand of Congress, is a primary consideration of the senatorial committee which will submit data gathered to Henry E. Wallace, secretary of agriculture.

Minnesotans attending the conference believed there is a strong possibility that the government station will be located and work in conjunction with the state experimental station here at Cloquet.

W. T. Cox, state forester, E. G. Cheyney, head of the division of forestry, University of Minnesota and representatives of commercial bodies of Minnesota and lumber companies met the senatorial committee. The Minnesota men submitted a comprehensive statement of facts as to the work which already has been done in Minnesota for the conservation of forests and promotion of lumber industries.

The statement showed that Minnesota has nearly 27,000,000 acres of potential forest area; that of this 8,000,000 will always be forests and another 8,000,000 acres will be kept as farm woodlots. It showed further that Minnesota annually spends more than \$11,000,000 in freight on outside shipments of lumber and that a large saving can be made on this by the proper development of the state's forest—a saving large enough to go far toward forest protection and development.

In 1900 the statement showed Minnesota produced 2,379,422,000 feet of northern pine whereas in 1919 it produced only 560,540,000 feet. The largest percentage of the areas will reproduce naturally if protected from fire, the statement said. Soon after arriving here from Duluth by automobile, the senators met in the Cloquet city hall, questioning those interested in forestry and were driven to the state forestry experimental station three miles out where they were shown the work there.

Minnesota representatives of the forestry industry believed the federal government may see an advantage in coupling the work of the federal station with that of the enterprising Minnesota station. Immediate progress could be made by taking advantage of information already gathered here it was pointed out, and this would meet a considerable saving of expense.

\$5,000,000 FUND FOR ENDOWMENT IS URGED BY WOMEN

DIRECTORS OF GENERAL FEDERATION OF WOMEN'S CLUBS DISCUSS IT

COUNCIL CALLS FOR BOYCOTT ON SUGAR UNTIL FAIR PRICE LEVEL GAINED

(By United Press)

Atlanta, Ga., May 12.—A proposal that the General Federation of Women's Clubs become a foundation with a \$5,000,000 endowment fund, was before the board of directors in the final session of the mid-biennial council being held here today.

The directors will discuss the suggestion and report to the convention of the federation to be held in Los Angeles in 1924. Following meetings of the board of directors and state presidents today, the council will formally adjourn tonight with a meeting of the executive committee.

The council by unanimous vote last night adopted a resolution calling for a boycott on sugar until prices are forced to reasonable level. The resolution places the 2,000,000 club women of the nation behind the boycott and will be a powerful factor in lowering sugar prices. It was predicted.

PLANES TO PREVENT BORDER RAIDS ASKED

Winnipeg, Man., May 12.—Patrol of the international border by airplane to prevent robbers raids on Canadian banks from the American side was urged by R. W. Craig, provincial attorney general, who has asked the Dominion air service officials at Ottawa to co-operate in establishing the patrol system.

Melita, Man., which is close to the international boundary, where bandits took a heavy toll last year, has been suggested as a central point.

SCHOOL TEACHER HAS "TALKING SICKNESS"

Parson, Kansas, May 12.—Talking almost continuously since last Thanksgiving, and still going strong, is the unique record of Miss Mildred Spencer, 20-year-old schoolman of this city.

Miss Spencer while visiting her home in Baldwin for the Thanksgiving vacation, prattled incessantly of "cabbages and kings," but the family thought she was only overjoyed to return. But when she awakened her mother night after night to continue the talk-fest, the family became alarmed.

Several weeks ago the patient was brought to a local sanitarium, where physicians diagnosed her malady as "talking sickness."

Miss Spencer is widely read and has a wealth of material upon which to enlighten attendants. She rarely repeats herself.

A cure within a few weeks is promised by physicians.

PROFIT SHARING PLAN PLANNED BY STANDARD

(By United Press)
New York, May 12.—A profit sharing plan for employees is being arranged by the directors of the Standard Oil Company of New York.

A meeting of the board has been called to consider the arrangements whereby stock could be purchased by employees up to twenty per cent of their salaries and for every dollar they subscribed the company would pay 50c.

ALICE R. JOHNSON TO PLAY PIANO FOR 'W. M. A. Q.' TONIGHT

Tonight, about 6:45 o'clock, if the static behaves and other conditions are just right, radio fans may have the pleasure of hearing Miss Alice Regina Johnson, daughter of Mr. and Mrs. O. B. Johnson, a student at the American Conservatory of Music, at Chicago, play the piano accompaniment for the soprano singer, Miss Itha Johnson, the two appearing on the program of "W. M. A. Q." of the Chicago Daily News.

Brainerd operators have promised to halt sending at the time named so as not to interfere with receiving.

Mrs. Johnson of Brainerd will be ready to hear her daughter play, and Mrs. Johnson of Wyoming will ride 40 miles from her ranch to a radio to hear her daughter sing.

ROUND-UP OF CLASS RUSH MEN

STARTED BY STATES ATTORNEY IN THE LEIGHTON MOUNT CASE

(By United Press)

Chicago, May 12.—Round-up of 41 students who left Northwestern university following the 1921 class rush in which Leighton Mount was last seen, was started today by deputies working under orders of Robert Crowe, states attorney.

Enrollment records of the university were seized by Crowe revealing the names of youths who left the institution following Mount's disappearance. John Dill Scott, president of the university, denied any of the students were discharged because of the Mount affair.

Mount's body was recently found under a pier reaching into Lake Michigan, a short distance from the university.

THAT IS REASON HE HAS REVAMPED HIS TOUR OF THE WEST

HARDING NOT AFRAID OF A STRAIGHT NEWS STORY GIVEN OUT TO READERS

DREADS, HOWEVER, THE SPECIAL WRITERS WITH THEIR "INTERPRETATIONS", ETC.

(By United Press)

Washington, May 12.—President Harding, himself a newspaper man, is afraid of the newspapers. That is the reason he has revamped plans for his western trip and intends to make at least half of it by water.

Mr. Harding is not afraid of having the newspaper carry a complete and faithful report of what he does, where he goes and what he says. He wants the country to know about that, and when he speaks in a gathering on a public question, he is glad to have his views given the widest publicity.

He is afraid, however, of having the straight news of his trip "interpreted" by special writers and others so that the journey will take on a political significance, which Mr. Harding is determined it shall not assume. That is the reason he is going to cut in half his speaking tour.

He will also by this means cut in half the number of public receptions he must undergo, the number of addresses he must make, the number of crowds he must appear before, the number of greetings, enthusiastic or otherwise which he will receive.

The president knows that in addition to the straight news of his trip and speeches, a great deal would be written about those other features—whether he was enthusiastically received, whether he was more or less popular now than when he took office. He fears that every time a well-known republican came down to the train to greet him that that would be made a political conference.

To Mr. Harding the forthcoming journey is not the western trip. It is the "Alaskan trip", it is a business journey which he will take in his official capacity and has neither a pleasure jaunt nor a political campaign swing.

PYROMANIAC IS IN LUMBER YARDS

(By United Press)
Grand Rapids, Mich., May 12.—Armed guards stood watch in every factory lumber yard today while police attempted to find a pyromaniac believed responsible for the loss of more than \$500,000 in three large fires this week.

Discovery that oil had been poured on piles of lumber led to swift measures by the police. Safety Director James Sinke ordered yard owners to instruct guards to shoot on sight suspicious characters.

Coast Player Gets Five Homers in Game

Salt Lake City, May 12.—Pete Schneider, rightfielder of the Vernon Coast League Baseball club, today set what is supposed to be a record, when he knocked out five home runs in today's game with Salt Lake. He drove in 14 of Vernon's runs and in his sixth time at bat the ball missed going over the fence by inches and was good for two bases. Vernon won, 35 to 11.

BRIGANDS SEND OUT PRISONER EMISSARY

HENLY TAKES BACK TO CAMP TERMS OF THE GOVERNMENT

AMERICAN REPORTS THAT THE CAPTIVES WERE ALL IN GOOD HEALTH

HIGH HOPES ARE HELD OUT THAT HE OBTAIN RELEASE BY SUNDAY

(By United Press)
Tientsin, May 12, 2:10 p. m.—J. A. Henly, American from San Francisco, went back this afternoon to the bandit camp in the Shantung hills whence he was released Friday, carrying food for the foreign captives still held captive, and terms on which the Chinese government proposes to negotiate with the brigands.

Henly, who was permitted to leave the stronghold to which the bandits withdrew with their prisoners they kidnapped after the wrecking of the Shanghai Express, Sunday morning, reported that the captives were in good health.

High hopes are held out that he will be able to negotiate success fully for release of all the foreigners by Sunday at the latest. China's military governors considering an ultimatum from the powers saying they will exact accumulative indemnities for each day the foreigners are held, announced they were prepared to pay whatever ransom the brigands now demand. At first the latter asked a million dollars, but after freeing their captives in small groups or singly, they have considerably reduced their demands.

It is not known here what amount is placed on the heads of the eight or ten foreigners still prisoners.

Part of the brigand terms was made known by Henly upon his arrival at the nearest post outside the hill country where the kidnapping horde rules. This is that the siege that is being laid by government troops about the brigand camp be lifted immediately.

The brigands also want the privilege of enlisting in the army or to receive the freedom of a fifty mile area in which they will be free from arrest or attack by troops.

MOMENTARY RELEASE OF PRISONERS EXPECTED

Washington, May 12.—The American government today momentarily expected release of the prisoners held by Chinese bandits who wrecked the Shanghai-Peking express.

Both the state department and the Chinese legation here have information which leads Secretary of State Hughes and Chinese Minister Sze to believe that the American and other foreign captives will soon be set free.

The department issued the following statement:

The department has received information from Consul Davis to the effect that it was believed the foreigners now held captives consist of 15 men and two women and that they will be released very soon.

KIPKE AVERTS RIOT AT U. OF MICHIGAN

Ann Arbor, Mich., May 12.—Harry Kipke, University of Michigan gridiron star, averted a threatened riot between university freshmen and sophomores here last night when, learning a group of 500 freshmen had congregated to attack 150 sophomores on the eve of the annual spring games, he climbed the steps of the Michigan Union and addressed the belligerent crowd.

"The hope of student government rests in your hands," Kipke told the freshmen. The first year men cheered Kipke and followed him through the streets in a shirt-tail parade before disbanding.

SLAVE PROBLEM IS ONE OF MORE COLORS THAN JUST THE WHITE

(By United Press)
Geneva, Switzerland, May 12.—In reply to a questionnaire sent by the League of Nations to all members asking them about the status of white slave traffic and local laws against it, the government of Haiti responded that a "white slave" question did not exist on that island.

The league's secretary now is considering the advisability of altering the language of the questionnaire so it will read black, brown, yellow or white slaves as the case may be.

POISONED PUNCH SICKENS STUDENTS

SOMEBODY MUST HAVE REINFORCED THE REFRESHMENTS

(By United Press)
Terre Haute, Indiana, May 12.—Fifty students and guests at the Junior prom of Rose Polytechnical Institute were under medical treatment physicians believed due to drinking poisoned punch.

Dr. E. L. Larkin who was called to the dancing floor when the students became ill, said some of the cases were serious, although he believed none would prove fatal.

NAMING U. S. SENATOR BEFORE THE COURTS

(By United Press)
St. Paul, May 12.—Action to bring the 1913 law relating to appointment of United States senator before the supreme court is being arranged today.

Governor Preus spent half of the afternoon in conference with prominent republican lawyers. It is believed they discussed action to be taken.

The governor has said he believed it his duty to respond to calls that he succeed the late Senator Knute Nelson, but he wants the court to decide whether the statute permitting him to resign as governor and be appointed to the senate is legal.

It was pointed out today that the courts have followed a rule of holding to the intent of the legislature and not to the actual wording of the law in many cases.

The governor went to Cloquet today to meet a senatorial commission probing forestry problems.

HOUSING DELEGATES TO ELKS' MEETING ARRANGED

Hibbing, May 12.—To provide for adequate accommodations for Elks who are expected to attend the state convention at Hibbing Aug. 16, 17, and 18, the housing committee of the convention executive board has secured the teachers' quarters in the Haley-Alexandria building and the Colonial clubhouse. The Oliver clubhouse will be headquarters for women.

Athletic events at Bennett park and a children's dress parade are two more numbers which have been added to the program. A sight-seeing tour into the open pit mines is also being arranged, it is stated.

HUNTER DRESSED IN HIDE OF MOTHER BEAR CAPTURES CUB ALIVE

Merrill, Wis., May 12.—After trapping a mother bear weighing 225 pounds, John Abery covered himself with the animal hide and waited near a tree in which two cub bears were seeking refuge. One of the cubs came to him quickly and proved so docile that Abery brought it to this city and expects to keep it as a pet. He intends to repeat the performance and capture the other cub.

RAILROADS TRY TO HOLD WORKERS IN SUMMER MONTHS

WAGE INCREASES OF \$30,000,000 YEARLY GRANTED IN PAST FEW WEEKS

NEGOTIATIONS UNDER WAY FOR ADDITIONAL ADVANCES OF \$50,000,000

(By United Press)
Chicago, May 12.—Railroads endeavoring to hold workers during the summer have granted wage increases totaling approximately \$30,000,000 yearly within the last few weeks, according to figures compiled here today.

Negotiations now under way involve advances of approximately \$50,000,000 annually additional.

The Great Northern railroad is the latest to join the ranks of the lines increasing pay voluntarily. Announcement was made of increases totaling \$1,000,000 annually for maintenance of way workers.

Shop workers, boiler makers, mechanics, clerks and other classes of workers have been granted advances on other lines.

Among railroads which had previously announced increases for certain workmen were the Santa Fe, Pennsylvania, Nashville, Chattanooga and St. Louis and Chicago & Alton.

These increases were granted either voluntarily or through negotiations directly between union heads and railroad officials without appeal to the United States railroad labor board.

However, the board is preparing to hear disputes which may be unsettled through direct negotiations between the managements and the men. Members of the board expect a nationwide movement for increases of all classes of railroad men's pay within the next few months.

WORLD'S YOUNGEST MOTHER IN TEXAS

(By United Press)
San Antonio, Texas, May 12.—Two months old Gordon Joe will wear a red flower on "Mother's Day" in honor of ten year old Mary Cavender, the world's youngest mother.

Mother Mary has temporarily deserted her marvelous little "live doll" that smiles and sometimes cries in her enthusiasm in arranging a surprise for Mrs. Sarah Culbertson, the only mother 28 other children of the San Antonio mission know. Beyond the red rose to be worn by her baby, there will be no recognition of the fact that Mary is a mother. The policy of the home, according to Mrs. Culbertson, is to treat Mary herself as a child and keep her from feeling the full extent of her responsibilities.

Farmer Lodge Laid Up

Chicago, May 12.—Farmer Lodge, who was unintentionally fouled by Jack Johnson in Havana last Sunday, will be unable to meet the former negro, heavyweight champion next Sunday in a resumption of their engagement, it was learned today, when Lodge passed through Chicago en route to St. Paul. Physicians said Lodge would not be in condition to fight again for at least six weeks.

"Colds" and Their Causes.

It is estimated that there are at least 100,000,000 colds in a year in this country, which is said to make it the most common infectious disease among our people. In this connection it also states that colds do not come from drafts or chills, as many believe, but that the draft and chill merely help things along by making it easier for the transmitted germs to get in its work.

Immunity Offered If Stills Are Surrendered

The city of Columbia Heights yesterday offered immunity from prosecution to all "bootleggers and manufacturers" of liquor who will turn in their stills and apparatus at the city fire house between today and May 19 and renounce their occupation.

AIM TO CONSERVE FOREST INDUSTRY OF UNITED STATES

COMMITTEE OF U. S. SENATORS MEET WITH INDUSTRY MEN IN CLOQUET

GOVERNMENT STATION MAY BE LOCATED THERE TO ASSIST IN WORK

The Brainerd Civic and Commerce Association named as delegates to this convention Mons Mahlum and A. G. Trommald.

Cloquet, Minn., May 12.—That a determined movement is on to conserve the forest industry of the United States, with Minnesota as the nation's largest forestry center, was evident as a committee of United States senators met this afternoon with representatives of the industry here.

The State Forestry Department, division of Forestry, also business men and lumber companies of the Northwest were represented at the conference.

Location of a Forestry Experimental station in the lake states as provided in a recent stand of Congress, is a primary consideration of the senatorial committee which will submit data gathered to Henry E. Wallace, secretary of agriculture.

Minnesotans attending the conference believed there is a strong possibility that the government station will be located and work in conjunction with the state experimental station here at Cloquet.

W. T. Cox, state forester, E. G. Cheyney, head of the division of forestry, University of Minnesota and representatives of commercial bodies of Minnesota and lumber companies met the senatorial committee. The Minnesota men submitted a comprehensive statement of facts as to the work which already has been done in Minnesota for the conservation of forests and promotion of lumber industries.

The statement showed that Minnesota has nearly 27,000,000 acres of potential forest area; that of this 8,000,000 will always be forests and another 8,000,000 acres will be kept as farm woodlots. It showed further that Minnesota annually spends more than \$11,000,000 in freight on outside shipments of lumber and that a large saving can be made on this by the proper development of the state's forest—a saving large enough to go far toward forest protection and development.

In 1900 the statement showed Minnesota produced 2,379,422,000 feet of northern pine whereas in 1919 it produced only 569,540,000 feet. The largest percentage of the areas will reproduce naturally if protected from fire, the statement said. Soon after arriving here from Duluth by automobile, the senators met in the Cloquet city hall, questioning those interested in forestry and were driven to the state forestry experimental station three miles out where they were shown the work there.

Minnesota representatives of the forestry industry believed the federal government may see an advantage in coupling the work of the federal station with that of the enterprising Minnesota station. Immediate progress could be made by taking advantage of information already gathered here it was pointed out, and this would meet a considerable saving of expense.

\$5,000,000 FUND FOR ENDOWMENT IS URGED BY WOMEN

DIRECTORS OF GENERAL FEDERATION OF WOMEN'S CLUBS DISCUSS IT

COUNCIL CALLS FOR BOYCOTT ON SUGAR UNTIL FAIR PRICE LEVEL GAINED

(By United Press)
Atlanta, Ga., May 12.—A proposal that the General Federation of Women's Clubs become a foundation with a \$5,000,000 endowment fund, was before the board of directors in the final session of the mid-biennial council being held here today.

The directors will discuss the suggestion and report to the convention of the federation to be held in Los Angeles in 1924. Following meetings of the board of directors and state presidents today, the council will formally adjourn tonight with a meeting of the executive committee.

The council by unanimous vote last night adopted a resolution calling for a boycott on sugar until prices are forced to reasonable level. The resolution places the 2,000,000 club women of the nation behind the boycott and will be a powerful factor in lowering sugar prices, it was predicted.

PLANES TO PREVENT BORDER RAIDS ASKED

Winnipeg, Man., May 12.—Patrol of the international border by airplane to prevent robbers raids on Canadian banks from the American side was urged by R. W. Craig, provincial attorney general, who has asked the Dominion air service officials at Ottawa to co-operate in establishing the patrol system.

Melita, Man., which is close to the international boundary, where bandits took a heavy toll last year, has been suggested as a central point.

SCHOOL TEACHER HAS "TALKING SICKNESS"

Parson, Kansas, May 12.—Talking almost continuously since last Thanksgiving, and still going strong, is the unique record of Miss Mildred Spencer, 20-year-old schoolmarm of this city.

Miss Spencer while visiting her home in Baldwin for the Thanksgiving vacation, prattled incessantly of "cabbages and kings," but the family thought she was only overjoyed to return. But when she awakened her mother night after night to continue the talk-fest, the family became alarmed.

Several weeks ago the patient was brought to a local sanitarium, where physicians diagnosed her malady as "talking sickness."

Miss Spencer is widely read and has a wealth of material upon which to enlighten attendants. She rarely repeats herself.

A cure within a few weeks is promised by physicians.

PROFIT SHARING PLAN PLANNED BY STANDARD

(By United Press)
New York, May 12.—A profit sharing plan for employees is being arranged by the directors of the Standard Oil Company of New York.

A meeting of the board has been called to consider the arrangements whereby stock could be purchased by employees up to twenty per cent of their salaries and for every dollar they subscribed the company would pay 50c.

ALICE R. JOHNSON TO PLAY PIANO FOR 'W. M. A. Q.' TONIGHT

Tonight, about 6:45 o'clock, if the static behaves and other conditions are just right, radio fans may have the pleasure of hearing Miss Alice Regina Johnson, daughter of Mr. and Mrs. O. B. Johnson, a student at the American Conservatory of Music, at Chicago, play the piano accompaniment for the soprano singer, Miss Itha Johnson, the two appearing on the program of "W. M. A. Q." of the Chicago Daily News.

Brainerd operators have promised to halt sending at the time named so as not to interfere with receiving.

Mrs. Johnson of Brainerd will be ready to hear her daughter play, and Mrs. Johnson of Wyoming will ride 40 miles from her ranch to a radio to hear her daughter sing.

ROUND-UP OF CLASS RUSH MEN

STARTED BY STATES ATTORNEY IN THE LEIGHTON MOUNT CASE

(By United Press)
Chicago, May 12.—Round-up of 41 students who left Northwestern university following the 1921 class rush in which Leighton Mount was last seen, was started today by deputies working under orders of Robert Crowe, states attorney.

Enrollment records of the university were seized by Crowe revealing the names of youths who left the institution following Mount's disappearance. John Dill Scott, president of the university, denied any of the students were discharged because of the Mount affair.

Mount's body was recently found under a pier reaching into Lake Michigan, a short distance from the university.

THAT IS REASON HE HAS REVAMPED HIS TOUR OF THE WEST

HARDING NOT AFRAID OF A STRAIGHT NEWS STORY GIVEN OUT TO READERS

DREADS, HOWEVER, THE SPECIAL WRITERS WITH THEIR "INTERPRETATIONS", ETC.

(By United Press)
Washington, May 12.—President Harding, himself a newspaper man, is afraid of the newspapers. That is the reason he has revamped plans for his western trip and intends to make at least half of it by water.

Mr. Harding is not afraid of having the newspaper carry a complete and faithful report of what he does, where he goes and what he says. He wants the country to know about that, and when he speaks in a gathering on a public question, he is glad to have his views given the widest publicity.

He is afraid, however, of having the straight news of his trip "interpreted" by special writers and others so that the journey will take on a political significance, which Mr. Harding is determined it shall not assume. That is the reason he is going to cut in half his speaking tour.

He will also by this means cut in half the number of public receptions he must undergo, the number of addresses he must make, the number of crowds he must appear before, the number of greetings, enthusiastic or otherwise which he will receive.

The president knows that in addition to the straight news of his trip and speeches, a great deal would be written about those other features—whether he was enthusiastically received, whether he was more or less popular now than when he took office. He fears that every time a well-known republican came down to the train to greet him that that would be made a political conference.

To Mr. Harding the forthcoming journey is not the western trip. It is the "Alaskan trip," it is a business journey which he will take in his official capacity and has neither a pleasure jaunt nor a political campaign swing.

PYROMANIAC IS IN LUMBER YARDS

(By United Press)
Grand Rapids, Mich., May 12.—Armed guards stood watch in every factory lumber yard today while police attempted to find a pyromaniac believed responsible for the loss of more than \$500,000 in three large fires this week.

Discovery that oil had been poured on piles of lumber lead to swift measures by the police. Safety Director James Sinke ordered yard owners to instruct guards to shoot on sight suspicious characters.

COAST PLAYER GETS FIVE HOMERS IN GAME

Salt Lake City, May 12.—Pete Schneider, rightfielder of the Vernon Coast League Baseball club, today set what is supposed to be a record, when he knocked out five home runs in today's game with Salt Lake. He drove in 14 of Vernon's runs and in his sixth time at bat the ball missed going over the fence by inches and was good for two bases. Vernon won, 35 to 11.

As It Used to Be.
Headline in exchange: "Cop Arrested for Taking Bribe." We are reminded of the old joke about policemen having a snap because the public pays them for protection from vice, and vice pays them for protection from the public.—Boston Evening Transcript.

SERVICE NEWS AGENCY

Business Conducted by I. C. Strout Is Enlarged and Gains New Quarters

The Service News Agency has moved its establishment from rooms in the Ransford block to the building just south of the Dispatch, formerly occupied by the millinery store of Husted & Scallion.

This building has been remodeled and a new front added, made and painted by C. C. Bowen which changes the appearance, and adds materially to its view from the street. An up-to-date news stand, fitted in the window carries all of the large dailies, and a full line of magazines and periodicals will be handled.

The tourist business will receive special attention, it being the intention of the agency to carry the home town papers for the convenience of these visitors. Among the list will be found the Omaha Bee, the Sioux Falls Argus Leader, the Cincinnati Post, the Des Moines Register & Leader, Chicago Herald Examiner, Kansas City Post, Milwaukee Journal, Los Angeles Times, Little Rock Gazette and the New York Times.

To add an even greater cosmopolitan atmosphere to the establishment a number of foreign publications will be featured, such as the Manchester Guardian and the London Daily Sketch, Tid Bits, and the Brazilian American, the first three published in England, the latter in Rio de Janeiro.

I. C. Strout, the present owner of the Service News Agency, purchased the business in 1919, and has built up a large patronage in that time. The agency holds the exclusive carrier service for all of the Twin City and Duluth papers, having over 900 subscribers on its routes. More than two thousand copies of Sunday newspapers are sold by this firm each week.

"Service Plus" is the motto of the firm, and the recent expansion of its business into larger quarters would seem to prove that this motto has been very faithfully followed. F. E. Strout is manager for his brother, and like him, is a live-wire news service man.

The evening was spent informally with music and talks, closing with a delicious luncheon served by Mrs. Turcotte.

MEMORIAL DAY PLANS PERFECTED

The committee in charge of the Memorial Day program, which will be given under the auspices of the American Legion, met Friday afternoon and perfected plans for this occasion.

The matter of obtaining a speaker for the day was placed in care of R. S. Wilcox. It is understood that George G. Glick, Duluth attorney, who is in charge of the Extension Division of the University of Minnesota's public speaking classes, will be asked to deliver the address. The balance of the program will be left to Superintendent W. C. Cobb.

Commander Arthur W. Lyddon and Lawrence M. Clark will attend to the matter of having the ex-service men out in uniform, and Mr. Cobb will arrange for the municipal band. A. A. Englund is to be marshal of the day.

To add an even greater cosmopolitan atmosphere to the establishment a number of foreign publications will be featured, such as the Manchester Guardian and the London Daily Sketch, Tid Bits, and the Brazilian American, the first three published in England, the latter in Rio de Janeiro.

I. C. Strout, the present owner of the Service News Agency, purchased the business in 1919, and has built up a large patronage in that time. The agency holds the exclusive carrier service for all of the Twin City and Duluth papers, having over 900 subscribers on its routes. More than two thousand copies of Sunday newspapers are sold by this firm each week.

"Service Plus" is the motto of the firm, and the recent expansion of its business into larger quarters would seem to prove that this motto has been very faithfully followed. F. E. Strout is manager for his brother, and like him, is a live-wire news service man.

Miss Mable Johnson, bride-to-be. The evening was full of surprises for Miss Johnson. Mrs. C. D. McKay dressed as a Syrian peddler appeared with a large clothes basket heaped high with beautiful gifts for the honor guest.

When her mission was concluded, Mrs. McKay sang a Syrian farewell song, graciously responding to an encore.

The evening was spent informally with music and talks, closing with a delicious luncheon served by Mrs. Turcotte.

MEMORIAL DAY PLANS PERFECTED

The committee in charge of the Memorial Day program, which will be given under the auspices of the American Legion, met Friday afternoon and perfected plans for this occasion.

The matter of obtaining a speaker for the day was placed in care of R. S. Wilcox. It is understood that George G. Glick, Duluth attorney, who is in charge of the Extension Division of the University of Minnesota's public speaking classes, will be asked to deliver the address. The balance of the program will be left to Superintendent W. C. Cobb.

Commander Arthur W. Lyndon and Lawrence M. Clark will attend to the matter of having the ex-service men out in uniform, and Mr. Cobb will arrange for the municipal band. A. A. England is to be marshal of the day.

MOTHERS' DAY

MOTHERS' DAY serves a useful purpose. It is a time of memories, when the past rises before one like a dream, the old days in the old home are relived, and the remembrance of such days is hallowed through the associations of the family. At the center of such dreams is the one who mothered the children and unostentatiously and sacrificially ministered to their needs.

Mothers' Day conserves three values. It brings into grateful remembrance the mother, who, having done her work, has passed over the divide; it leads those, whose mothers are still living, to think of them with proper appreciation of their ministry, and to offer their tribute to mother whether she is at hand or far away; and it invites a proper appreciation of motherhood in general and breathes the thought that when motherhood is properly appraised, the mothers of men will be impressed yet more fully with the privilege, duty and sanctified obligation of motherhood.

This day is not a day for the outpouring of sentimentality. Tears and flowers are not important. What is important is the attitude to life that results from thinking of mother. Unless the character of the person who wears the flower in mother's honor is affected by thoughts of mother, the real value of the day is not realized. The growth of a character, that has been watched by mother with tender solicitude, and watered by her tears, is the best tribute to mother. Unless the life grows flowers of affection whose fragrance reaches a mother's life the flower in the button hole means but little.

If the day is to realize its highest value, there must be an extension of the appreciation of the one mother to other mothers, until there is born an appreciation of motherhood in general. In honoring one's mother one is to attempt to see in other mothers the splendid qualities that made mother stand out as the finest person in the world. Nor is this all. The mothers-to-be must be treated with a respect that is theirs because of the divine calling to motherhood. This respect will lead to the suppression of any unworthy desires in the presence of those who are to be the mothers of the race; and these themselves, as they think of their mothers, will seek to qualify as worthy descendants of good mothers and fit vessels to be used in moulding better children than their mothers were able to give to the world. The world owes much to mothers, and the daughters of mothers owe it to their own children that the best traits of those who bore them shall be passed on to their own children improved by them in the passing.

In these days of uncertainty it is well to think of the fortitude that mother knew through the faith that was hers. Perhaps it is not possible to agree with all she believed but it is possible to possess as strong a faith in the eternal verities that are unshaken by passing time. The three great virtues, named by the apostle, as the abiding things, were faith, hope and love; and amid all the controversies, uncertainties and disintegrations of life and society these three virtues are abiding, and the greatest of these is love—love that never reaches a height that is higher than that revealed in the sacrifices of the mothers of the race.

DANCING AND LAWLESSNESS

THE last session of the Minnesota legislature was led to consider the lawlessness that has been practiced where dancing has been used as an excuse for unlawful behavior. Evidence was presented to the legislature which tended to show that dancing has been used as a cloak to cover up lawless practices. As a result of these disclosures, the legislature passed a bill, that becomes effective in June, which will tend to curb lawlessness in and around halls where public dances are held.

There are not many who would attempt to suppress dancing altogether. It is quite generally felt that dancing in itself is a pleasing means of enjoyment that may be indulged in without harm to the person attached to this form of recreation. It is not the dancing but its associations that endanger the morals of young people who dance together in public dance halls. Dancing is one of the oldest of all means of expression. In the earliest times men and women danced and, in their dancing, expressed their moods. It took its place even in the religious rites of earlier peoples, and folk dances have been characteristic of all races of people. Whether primitive or cultured, peoples have expressed their emotions in dances of various kinds.

It seems at times that those who stand in the way of young people dancing in surroundings that are good are compelling them to dance in surroundings that are evil. Young people will dance, and it is not the dance itself but the surroundings that lead to moral lapses.

It cannot be questioned that in recent years public dances have been used as a cloak for lawlessness. Evil elements have gathered at these dances and youths of good character have been endangered by the associations of public dances. Such conditions must be changed. The evil will not be wholly cured by legislation, for legislation will not alter the character of those who express themselves viciously at public dances, but the recently enacted legislation will act as a preventive and will safeguard innocence from the encroachments of these lawless elements.

This new legislation provides that a permit must be secured before a public dance is given, that an officer must be present during the hours of the dance, that liquor is not to be used in the building or near the building, that lights must not be dimmed during the dance and that no person under 16 years unless accompanied by a parent or guardian may be present, or no person under 18 who is not accompanied by a parent or guardian who does not have a written permit from parent or guardian. The last provision does not apply to persons who are married.

If this law is enforced there will be a decrease in the lawless acts in dance halls, and those who wish to dance in a decent and proper manner will be free to do so without being insulted by the things they hear and see. Cases coming to the attention of child welfare boards in Minnesota will be fewer if this law is made effective in the state.

BANKS AND BANKING

AMONG institutions that are coming in for their meed of criti-

cism are the banks and the bankers. No institution seems to be immune from the wave of criticism that has been passing through American society since we ended the world war victoriously and became the most prosperous people on the face of the earth.

When people are in a critical mood anything offers a ground for criticism. It may be the party in power, the railroads, the bankers, the international bankers, the president or the weather. Causes are not sought out but suspicion is sufficient as a ground for judgment.

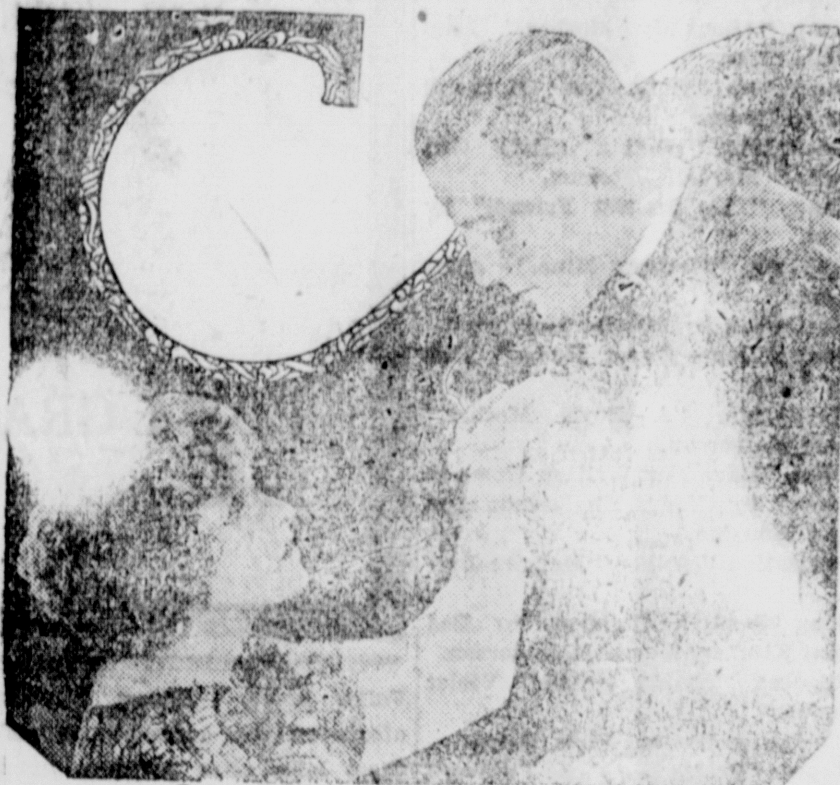

The bane of a great deal of contemporary criticism lies in the fact that the critics presuppose that were they in the places of those criticized they would do so much better. They would manage railroads, run the government, invest the funds of the banks and make the weather, a great deal better than those who are in charge of these affairs at this time.

Turning to the banks and the bankers, they claim that these institutions and men are not giving service to the communities in which they stand. Without any real knowledge of where the money is placed they criticize its placement. Without estimating what the banks are doing for the communities, in financing the schools, the county board, bond issues for streets and other purposes; farming, business and individual projects; they argue that their service is restricted to getting the best advantage for themselves at the expense of the community.

It is not to be denied that a bank's first obligation is to itself, and it must always invest its funds with perfect safety. It must carry on just as the individual must carry on, and it is interested in placing its money to the best advantage just as the individual is intent upon selling his services at the best possible price. There are many men, however, who have reason to be thankful that there are banks to go to, and these are not ready to concede that the critics of banks would run them more efficiently and safely than their present managers. Nothing is more deplorable than the announcement of a bank smash, and were the banks in the hands of their traducers these would occur with greater frequency. The people will be better served when they criticize less and co-operate more, conceding all the time that, after all, it is possible that those who are at the head of institutions are capable of running them. This country needs a minimum of criticism and a maximum of unified constructive effort at this time.

"The public had been thrilled by the war. There was an appetite for thrills.

"The storm scene" is the costliest and most difficult single scene I have ever done in pictures. We had as many as three and four hundred workmen preparing for it.

"The trees that are overturned weigh tons. I fear to estimate how many. The building that is blown through the air weighs nearly 1500 pounds.

"Personally I think such scenes as the storm scene, are the special province of the films, the first medium that has been able to reproduce this elemental drama that is so tremendous.

"We of course, like to think our little affairs are important, but there certainly is something affecting in the destruction of a great healthy tree that was in it prime before we were born.

"I like 'One Exciting Night.' I like its comedy. I like several things about it. I like it because I feel that it will take many people out of themselves during the minutes they are seeing it. And anything that does that is worth liking."

Monuments

Memorial Day will soon be here and you will want a monument or marker erected on the grave of your loved one to designate for all time the last resting place of those gone before.

Monuments and markers made only of the best grades of granite obtainable and first-class workmanship.

Also a fine line of flower vases. You can save money by buying at home and see what you are getting before buying. Have no agents to run up prices. Now is the time to put in your order for Memorial day. If you appreciate courteous and quick service let us know your wants.

RED OWL STORES TO OPEN BRANCH

Will Locate in Rooms Formerly Occupied by Stoughton Variety Store, 210 South 7th Street

ON HELP YOURSELF PLAN

Brainerd Chosen as Location Because of the Good Trade Outlook Here

The Red Owl Stores, Incorporated, will open a branch in Brainerd on or about May 15th, in the rooms formerly occupied by the Stoughton Variety store at 210 South Seventh street.

These stores are operated on the chain system, similar to the method used by the J. C. Penney Co., with the exception that they are grocery instead of dry good emporiums.

The Red Owl stores prefer to have their establishments called "groceries," since they are operated on the "Help-yourself" plan very much like the recently famous Piggy Wiggly groceries, the difference being that the Red Owl stores do employ a few clerks while the Piggy Wiggly do not.

This is a comparatively new line of business in Minnesota, the Red Owl Co., having just started in this state. Brainerd was chosen as one of the first cities in which to locate stores, because of the excellent outlook here and the good territory from which to draw. The state headquarters of the company is in St. Paul.

PARK BOARD HAS ITS FIRST MEETING

Each Member of Board Becomes Sponsor for One of City's Parks

The new Brainerd Park Board held its first meeting on Friday evening. The officers elected are:

President—Carl Wright.

Vice President—T. H. Schaefer.

Secretary—Hugo Kaatz.

The new board will follow out the plans adopted by its predecessor, in that each member will have charge of some specific activity. Hugo Kaatz will be in charge of Lum park. T. H. Schaefer of Gregory park, and Carl Wright will look after the playgrounds at the various schools which are maintained by the board and in addition, have charge of White park.

The regular routine business was transacted. A number of minor repair bills were allowed, but no new construction will be done at this time.

Third Annual Pike Supper

The Bethlehem Lutheran church will on Friday, May 25 give their third annual pike supper. The men are making preparations for the big catch. Gustav Halvorsen will lead the band to the old fishing grounds. Mille Lacs lake and Gull lake. Severn Swanson and John Hoston will have charge of ticket selling. Carl Anderson is the chef of the kitchen. Sam Engbretson will prepare the fish. The men of the church and friends may all go along to the old fishing grounds.

The ladies will take charge of the tables, solicit the food and look after the details. The big day is Friday the 25th of May. Don't forget the date.

LOOKING FORWARD TO BIG SEASON

Brainerd Country Club Asked to Join an Inter-City Association of Clubs

TO NUMBER EIGHT TOWNS

Brainerd Golfers Will Thus Have an Opportunity to Play Five Games Away From Home

The Brainerd Country Club is looking forward to a real season of golf this year. The club has been asked to join an inter-city association made up of the following cities: Willmar, Bemidji, Sauk Center, Little Falls, Alexandria, Detroit, St. Cloud and Brainerd.

The local club has accepted this invitation, as have most of the others mentioned above. Several are in the "doubtful" list, but it is hoped that they can be induced to join also.

Brainerd will thus have an opportunity of playing at least five games away from home and as many on the local links.

Harry R. Johnston, Minnesota state amateur champion, not only is a fine exponent of golf, but is a firm believer in its value to all who participate. He believes that the following anonymous contribution sums up the merits of the popular sport:

"Golf is a science, the study of a lifetime, in which you may exhaust yourself but never your subject. It is a contest, a duel, or a melee, calling for courage, skill, strategy and self control.

"It is a test of temper, a trial of honor, a revealer of character. It affords a chance to play the man, and act the gentlemen. It means getting into the out-of-doors, getting close to nature, fresh air, exercise, a sweeping away of the mental cobwebs, a genuine re-creation of the tired tissues.

"It is a cure for care, an antidote to worry. It includes companionship with friends, social intercourse, opportunities for courtesy, kindness and generosity to an opponent. It promotes not only physical health, but moral force."

People who have their mothers living are very fortunate. We can send her a bouquet and write a letter showing our appreciation of her love and kindness. Mother's advice goes hand in hand with her experienced judgment.

One of her first thoughts is a toy bank for her child where all small change is placed to be moved later to a regular Banking institution.

Mother's instinct knows full well that the child's future depends on its ability to save. Therefore, she endeavors to impress her child with this lesson at once. We all know that mother's advice is the kind to follow through life.

Program Includes Addresses by Prominent Minnesota Club Women

The Minnesota Federation of Women's Clubs of the sixth district, will hold its eighteenth annual meeting at Park Rapids on Tuesday and Wednesday, May 15th and 16th, by invitation of the Improvement Club of that town. The sessions are to be held at the Baptist church.

The program, in addition to the regular business, reports and election of officers, includes addresses by prominent Minnesota club women and some excellent musical numbers.

Among the latter are violin solos by Miss Alice R. Johnstone of Brainerd, with her mother, Mrs. W. A. M. Johnstone, accompanist. Miss Johnstone's place on the program is at 2:30 Wednesday afternoon.

Park Rapids is planning quite a little in the entertainment line for the visiting ladies. There will be an automobile ride and dinner at Northern Pine Camp on Tuesday afternoon, and a luncheon on Wednesday.

LOOKING FORWARD TO BIG SEASON

Brainerd Country Club Asked to Join an Inter-City Association of Clubs

TO NUMBER EIGHT TOWNS

Brainerd Golfers Will Thus Have an Opportunity to Play Five Games Away From Home

The Brainerd Country Club is looking forward to a real season of golf this year. The club has been asked to join an inter-city association made up of the following cities: Willmar, Bemidji, Sauk Center, Little Falls, Alexandria, Detroit, St. Cloud and Brainerd.

The local club has accepted this invitation, as have most of the others mentioned above. Several are in the "doubtful" list, but it is hoped that they can be induced to join also.

Brainerd will thus have an opportunity of playing at least five games away from home and as many on the local links.

Harry R. Johnston, Minnesota state amateur champion, not only is a fine exponent of golf, but is a firm believer in its value to all who participate. He believes that the following anonymous contribution sums up the merits of the popular sport:

"Golf is a science, the study of a lifetime, in which you may exhaust yourself but never your subject. It is a contest, a duel, or a melee, calling for courage, skill, strategy and self control."

"It is a test of temper, a trial of honor, a revealer of character. It affords a chance to play the man, and act the gentlemen. It means getting into the out-of-doors, getting close to nature, fresh air, exercise, a sweeping away of the mental cobwebs, a genuine re-creation of the tired tissues."

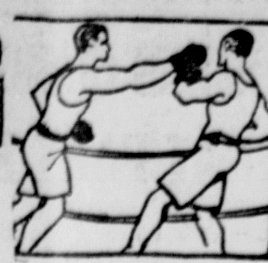

"It is a cure for care, an antidote to worry. It includes companionship with friends, social intercourse, opportunities for courtesy, kindness and generosity to an opponent. It promotes not only physical health, but moral force."

SHUT OUT the Poisonous FLY

The pesky flies are here again and once inside they'll stay. There is just one way to keep them out: that's to meet them with every door

FLOOD OF OUTDOOR BOXING BOUTS

By HENRY L. FARRELL
United Press Sports Editor

New York, May 12.—Outdoor boxing has developed into such a huge commercial enterprise that the day of big winter indoor bouts may have passed, for good.

The extent to which the possibilities for huge purses in the big ball parks and open-air stadiums have increased was shown when Tex Rickard failed completely to get a star bout to close the indoor season at Madison Square Garden with a mid-May show.

Rejuvenation of action in the featherweight and middleweight divisions, the development of two or three "logical contenders" for the heavyweight championship and the increased facilities for crowds in the two New York baseball parks may go so far in producing big bouts this year that the public might get too much of it.

At least a dozen fine cards may be arranged for the summer season in and around New York.

Jack Dempsey has good prospects for fights with Luis Firpo and Harry Wills, after his Montana fight with Tom Gibbons on July 4, although present plans are to match Dempsey and Firpo in South America this November.

Mike McTigue and Georges Carpentier have already been matched and the winner no doubt can have another bout with Gene Tunney, the American light heavyweight champion.

Johnny Wilson has several good middleweights in line for him headed by Jack Malone, the St. Paul "champion." Mickey Walker, the welterweight champion, also wants a crack at him.

Walker can command two large purses without meeting any of the dangerous fighters in the welterweight class, as he can take on Wilson and then give Benny Leonard the chance that he wants at his crown.

Leonard has almost a million dollars right within his grasp. The light-weight champion has in prospect contests with Walker, Lew Tendler, Sailor Friedman, Charley White and Rocky Kansas and they would all be good drawing cards.

Johnny Kilbane, the venerable featherweight champion, has already signed to meet Eugene Cirieli, the French featherweight champion, and if he gets over the Frenchman he can, if he wants to, fight Johnny Dundee and Joe Lynch.

Lynch, the bantamweight champion, following the example of other champions who like to avoid the dangerous men in their class, may be forced to accept the challenge of Carl Tremaine, and then fight Joe Burman and Johnny Curtin.

Jimmy Wilde, the world's flyweight champion, is coming over to fight Pancho Villa, the former American champion, and the winner perhaps will be matched with Frankie Genaro, the present champion.

Villa and Genaro both say they would like to meet Joe Lynch and if the bantam champion can avoid his own challengers, he no doubt would accept an offer—if large enough.

It is a question if the public can be steamed up to pay the freight for all the bouts that can be arranged. There is such an abundance of championship bouts in the making that it might be possible to arrange a big bout every week. This would bring about a war among the promoters and there are several good ones now under way. New York can be counted upon to stand for everything that would not go in any other big city and only the fear of interference from Albany may restrain the promoters and the boxers from losing their heads completely.

After their infields have been turned into a miniature of the shelled western front of a few years ago, the major league club owners of New York may forego some of the temptation to use their parks for attractions other than baseball.

Boxing ruined the playing field of Ebbets Field last year and in addition the Brooklyn club failed to cash in on prospects that were just as bright then as the ones that now are held up for the New York clubs. The National league players said at the close of the season last year that Ebbets Field had the worst playing field outside of the public city parks.

The playing field at the new Yankee stadium is said by the players to be as nearly perfect as any field they have ever seen and it seems a shame to tear it up with the feet of a lot of fight fans.

If the Yank field isn't ruined by fight crowds, it has a slim chance to survive the onslaughts of a herd of bronchos and steers that are going to cavort around the grounds at a rodeo to be held there in August.

Over 100 Athletes In Track Meet at Marshall

Marshall, May 12.—More than 100 athletes, representing 13 high schools, will participate in the annual southwestern Minnesota interscholastic field and track meet to take place here

today. The meet will include eight running events and six field events, with a total of 126 points to be divided among the schools. High school teams entered are Marshall, Pipestone, Russell, Tracy, Windom, Hendricks, Minnesota, Springfield, Clarkfield, Ortonville, Montevideo, Tyler and Madison.

ALL SET FOR BIGGEST HEAVYWEIGHT CARNIVAL

Sun Peeps Through Clouds After Slow Drizzling Rain

New York, May 12.—The slow drizzling rain of the morning finished shortly after 1 p. m.—two hours before the first preliminaries of the Willard-Johnson fight was scheduled to start—and the sun was peeping through the clouds at intervals.

One ton and more of giants, modern take offs of the old cave champions who used to battle with trees, will be thrown into the ring at the Yankee stadium.

It is the greatest heavyweight carnival boxing has ever known. Ten heavyweights are scheduled to go through fifty rounds of boxing to determine which has the right to put himself against Jack Dempsey (as the greatest man in the world with his fists).

Everything has been arranged perfectly to shoot any number of records.

The program and the time at which the bouts will start if they all go the limit follows:

Joe McCann, New Jersey, versus Harry Drake, England, four rounds at 3 o'clock.

Al Reisch, New York, versus Jim Herman, Omaha, six rounds at 3:20.

Fred Fulton, Minnesota, versus Jack Renault, Canada, ten rounds at 3:50.

Luis Firpo, Argentina, versus Jack McAuliffe, Detroit, fifteen rounds at 4:30.

Jess Willard, Kansas, versus Floyd Johnson, New York, 15 rounds at 5:30.

In the event that the preliminary bouts do not go the full distance of schedule, the program will be carried ahead of schedule as the bouts will be pulled off one after another.

Thousands of Spectators

Yankee Stadium, New York, May 12.—With the sun and rain clouds putting on an unscheduled preliminary bout, thousands of spectators swarmed into the mammoth Yankee baseball stadium this afternoon to sit in on the greatest heavyweight boxing carnival.

After showers had held the lead most of the morning, the sun rallied at 1 o'clock and beamed out with midsummer intensity.

While fair weather was promised momentarily, grave threatening clouds were in the background and the fans in the exposed sections had rain proof equipment ready for a quick grab.

Harry Drake did all the clever boxing and won the judge's decision in the first preliminary which went four rounds.

Joe McCann, New Jersey, was the loser.

Reich and "Tiny" Herman entered the ring at 3:15.

A Fresh Start.

Miss M. writes that while she was visiting her sister in the country she overslept one morning and was awakened by her little niece, 3½ years old, who exclaimed: "Aunt Annie, get up; the world has begun."—Boston Evening Transcript.

Nero's Golden House.

Nero built the costliest palace the world has ever known. It was called the "Domus Aurea," or Golden House. Remains of one end of this colossal dwelling have just been unearthed. It is said to have contained 100,000 rooms.

Deal, England, May 12.—Roger Wethered won the British amateur golf title here this afternoon, defeating Robert Harris, in the final match of the championships.

POWER BEHIND THE "BLUFF"

Diplomatic Captain of American Warship "Put One Over" on the High Chinese Authorities

The government spends a good deal of money each year on the education of several hundred young men at Annapolis destined to become naval officers in the course of four years. Every once in a while there comes specific evidence that the money is not wasted.

Capt. Frank H. Schofield, U. S. N., member of the general board, tells this yarn to illustrate the point, according to the Philadelphia Ledger:

"In the days of wooden ships, one of ours in the Chinese station received orders to proceed to a certain Chinese port to demand redress from the local governor for the harsh treatment of some American missionaries. A small indemnity was to be collected and a salute to the American flag required.

"The ship arrived at the port, and the captain delivered (with undue ceremony) the demands of our government. He told the governor that he would expect a prompt and favorable reply. Next morning, having received no reply, the captain sent his aid to the governor to say that he had now carried out the first part of his orders and that should the governor fail to comply with his demands before 12 o'clock of that day he would be under the painful necessity of executing the second part of his orders.

"The aid had no more than returned to the ship after delivering his message when the American flag was run up on shore near the governor's palace and saluted with twenty-one guns. Immediately afterward the governor's barge with the crew pulling the well-known official goosestep stroke came alongside with the governor and the indemnity.

"Needless to say the governor was well received and that his visit was the first of a pleasant exchange of courtesies that occupied the succeeding days.

"When the visit was over and the ship was sailing away, the captain's aid ventured to inquire what the second part of the captain's orders had been. The old man, with a broad smile and satisfied grin, pulled the orders out of his pocket and read: 'Failing to obtain satisfaction within twenty-four hours of your arrival, you will quit the port and take no further action in the premises.'

WASH YOUR KIDNEYS BY DRINKING WATER

If Your Back Hurts or Bladder Bothers, Also Take Some Salts

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer pains in the back or sick headache, dizziness, your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids, to help cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive; cannot injure and makes a delightful effervescent lithia-water drink. By all means have your physician examine your kidneys at least twice a year.—Advt.

FANNING WITH FARRELL

FLOOD OF OUTDOOR BOXING BOUTS

By HENRY L. FARRELL
United Press Sports Editor

New York, May 12.—Outdoor boxing has developed into such a huge commercial enterprise that the day of big winter indoor bouts may have passed, for good.

The extent to which the possibilities for huge purses in the big ball parks and open-air stadiums have increased was shown when Tex Rickard failed completely to get a star bout to close the indoor season at Madison Square Garden with a mid-May show.

Rejuvenation of action in the featherweight and middleweight divisions, the development of two or three "logical contenders" for the heavyweight championship and the increased facilities for crowds in the two New York baseball parks may go so far in producing big bouts this year that the public might get too much of it.

At least a dozen fine cards may be arranged for the summer season in and around New York.

Jack Dempsey has good prospects for fights with Luis Firpo and Harry Wills, after his Montana fight with Tom Gibbons on July 4, although present plans are to match Dempsey and Firpo in South America this November. Mike McTigue and Georges Carpentier have already been matched and the winner no doubt can have another bout with Gene Tunney, the American light heavyweight champion.

Johnny Wilson has several good middleweights in line for him headed by Jock Malone, the St. Paul "champion." Mickey Walker, the welterweight champion, also wants a crack at him.

Walker can command two large purses without meeting any of the dangerous fighters in the welterweight class, as he can take on Wilson and then give Benny Leonard the chance that he wants at his crown.

Leonard has almost a million dollars right within his grasp. The lightweight champion has in prospect contests with Walker, Lew Tendler, Sailor Friedman, Charley White and Rocky Kansas and they would all be good drawing cards.

Johnny Kilbane, the venerable featherweight champion, has already signed to meet Eugene Criqui, the French featherweight champion, and if he gets over the Frenchman he can, if he wants to, fight Johnny Dundee and Joe Lynch.

Lynch, the bantamweight champion, following the example of other champions who like to avoid the dangerous men in their class, may be forced to accept the challenge of Carl Tremaine, and then fight Joe Burman and Johnny Curtin.

Jimmy Wilde, the world's flyweight champion, is coming over to fight Pancho Villa, the former American champion, and the winner perhaps will be matched with Frankie Genaro, the present champion.

Villa and Genaro both say they would like to meet Joe Lynch and if the bantam champion can avoid his own challengers, he no doubt would accept an offer—if large enough.

It is a question if the public can be steamed up to pay the freight for all the bouts that can be arranged. There is such an abundance of championship bouts in the making that it might be possible to arrange a big bout every week. This would bring about a war among the promoters and there are several good ones now under way. New York can be counted upon to stand for everything that would not go in any other big city and only the fear of interference from Albany may restrain the promoters and the boxers from losing their heads completely.

After their infields have been turned into a miniature of the shelled western front of a few years ago, the major league club owners of New York may forego some of the temptation to use their parks for attractions other than baseball.

Boxing ruined the playing field of Ebbets Field last year and in addition the Brooklyn club failed to cash in on prospects that were just as bright then as the ones that now are held up for the New York clubs. The National league players said at the close of the season last year that Ebbets Field had the worst playing field outside of the public city parks.

The playing field at the new Yankee stadium is said by the players to be as nearly perfect as any field they have ever seen and it seems a shame to tear it up with the feet of a lot of fight fans.

If the Yank field isn't ruined by fight crowds, it has a slim chance to survive the onslaughts of a herd of bronchos and steers that are going to cavort around the grounds at a rodeo to be held there in August.

Over 100 Athletes In Track Meet at Marshall

Marshall, May 12.—More than 100 athletes, representing 13 high schools, will participate in the annual southwestern Minnesota interscholastic field and track meet to take place here

today. The meet will include eight running events and six field events, with a total of 126 points to be divided among the schools. High school teams entered are Marshall, Pipestone, Russell, Tracy, Windom, Hendricks, Minnesota, Springfield, Clarkfield, Ortonville, Montevideo, Tyler and Madison.

ALL SET FOR BIGGEST HEAVYWEIGHT CARNIVAL

Sun Peeps Through Clouds After Slow Drizzling Rain

New York, May 12.—The slow drizzling rain of the morning finished shortly after 1 p. m.—two hours before the first preliminaries of the Willard-Johnson fight was scheduled to start—and the sun was peeping through the clouds at intervals.

One ton and more of giants, modern take offs of the old cave champions who used to battle with trees, will be thrown into the ring at the Yankee stadium.

It is the greatest heavyweight carnival boxing has ever known. Ten heavyweights are scheduled to go through fifty rounds of boxing to determine which has the right to put himself against Jack Dempsey as the greatest man in the world with his fists.

Everything has been arranged perfectly to shoot any number of records.

The program and the time at which the bouts will start if they all go the limit follows:

Joe McCann, New Jersey, versus Harry Drake, England, four rounds at 3 o'clock.

Al. Reisch, New York, versus Jim Herman, Omaha, six rounds at 3:20.

Fred Fulton, Minnesota, versus Jack Renault, Canada, ten rounds at 3:50.

Luis Firpo, Argentina, versus Jack McAuliffe, Detroit, fifteen rounds at 4:30.

Jess Willard, Kansas, versus Floyd Johnson, New York, 15 rounds at 5:30.

In the event that the preliminary bouts do not go the full distance of schedule, the program will be carried ahead of schedule as the bouts will be pulled off one after another.

Thousands of Spectators

Yankee Stadium, New York, May 12.—With the sun and rain clouds putting on an unscheduled preliminary bout, thousands of spectators swarmed into the mammoth Yankee baseball stadium this afternoon to sit in on the greatest heavyweight boxing carnival.

After showers had held the lead most of the morning, the sun rallied at 1 o'clock and beamed out with midsummer intensity.

While fair weather was promised momentarily, grave threatening clouds were in the background and the fans in the exposed sections had rain proof equipment ready for a quick grab.

Harry Drake did all the clever boxing and won the judge's decision in the first preliminary which went four rounds.

Joe McCann, New Jersey, was the loser. Reich and "Tiny" Herman entered the ring at 3:15.

A Fresh Start.

Miss M. writes that while she was visiting her sister in the country she overslept one morning and was awakened by her little niece, 3½ years old, who exclaimed: "Aunt Annie, get up; the world has begun."—Boston Evening Transcript.

Nero's Golden House.

Nero built the costliest palace the world has ever known. It was called the "Domus Aurea," or Golden House. Remains of one end of this colossal dwelling have just been unearthed. It is said to have contained 100,000 rooms.

Deaf, England, May 12.—Roger Wethered won the British amateur golf title here this afternoon, defeating Robert Harris, in the final match of the championships.

POWER BEHIND THE "BLUFF"

Diplomatic Captain of American Warship "Put One Over" on the High Chinese Authorities

The government spends a good deal of money each year on the education of several hundred young men at Annapolis destined to become naval officers in the course of four years. Every once in a while there comes specific evidence that the money is not wasted.

Capt. Frank H. Schofield, U. S. N., member of the general board, tells this yarn to illustrate the point, according to the Philadelphia Ledger:

"In the days of wooden ships, one of ours in the Chinese station received orders to proceed to a certain Chinese port to demand redress from the local governor for the harsh treatment of some American missionaries. A small indemnity was to be collected and a salute to the American flag required. 'The ship arrived at the port, and the captain delivered (with undue ceremony) the demands of our government. He told the governor that he would expect a prompt and favorable reply. Next morning, having received no reply, the captain sent his aid to the governor to say that he had now carried out the first part of his orders and that should the governor fail to comply with his demands before 12 o'clock of that day he would be under the painful necessity of executing the second part of his orders.

"The aid had no more than returned to the ship after delivering his message when the American flag was run up on shore near the governor's palace and saluted with twenty-one guns. Immediately afterward the governor's barge with the crew pulling the well-known official goosestep stroke came alongside with the governor and the indemnity.

"Needless to say the governor was well received and that his visit was the first of a pleasant exchange of courtesies that occupied the succeeding days.

"When the visit was over and the ship was sailing away, the captain's aid ventured to inquire what the second part of the captain's orders had been. The old man, with a broad smile and satisfied grin, pulled the orders out of his pocket and read: 'Failing to obtain satisfaction within twenty-four hours of your arrival, you will quit the port and take no further action in the premises.'

WASH YOUR KIDNEYS BY DRINKING WATER

If Your Back Hurts or Bladder Bothers, Also Take Some Salts

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer pains in the back or sick headache, dizziness, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids, to help cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive; cannot injure and makes a delightful effervescent lithia-water drink. By all means have your physician examine your kidneys at least twice a year.—Advt.
